

The Moonlight Fox

A Peaceful Pillow Story

Snuggle in, take a deep breath, and let the story begin.

Chapter 1 â Too Much Running

Rue the fox had been running all day.

She had chased butterflies across the clover field,
splashed through every puddle on the forest path,
and climbed the tallest hill three times, just because.

By the time evening came, even Rue's shadow felt tired.

"What now?" she asked herself.

Chapter 2 â The Giant Mushroom

Deep in the forest, Rue found a mushroom
wider than her favourite tree stump,
with a cap that glowed faintly amber in the dark.

Fireflies drifted around it like tiny, quiet thoughts.

Rue stopped. For the first time all day, she simply... stopped.

She sat down in the soft moss and watched.
